#### CONTENTS GUIDE

### QUAD DRIVE SPANNERS

SP Tools patented QUAD DRIVE open end offers 4 times the gripping power of a standard ROE spanner by wrapping around the fastener and maximising the contact on the flat sides of the fastener head, not the points.

PATENTED

### FLAT DRIVE RING END

SP Tools RING END spanners feature flat drive ring ends, making them the perfect spanner for getting to and loosening those tricky, hard to reach, often worn fasteners by increasing the contact area with the nut or bolt head.

### FLAT DRIVE TECHNOLOGY

Perfectly flat spanner head surfaces allow for maximum contact between the spanner and the bolt or nut, maximising grip and enhancing applied torque.

### CONTENTS GUIDE

### QUAD DRIVE SPANNERS

SP Tools patented QUAD DRIVE open end offers 4 times the gripping power of a standard ROE spanner by wrapping around the fastener and maximising the contact on the flat sides of the fastener head, not the points.

### FLAT DRIVE RING END

SP Tools RING END spanners feature flat drive ring ends, making them the perfect spanner for getting to and loosening those tricky, hard to reach, often worn fasteners by increasing the contact area with the nut or bolt head.

### FLAT DRIVE TECHNOLOGY

Perfectly flat spanner head surfaces allow for maximum contact between the spanner and the bolt or nut, maximising grip and enhancing applied torque.

### HEAVY DUTY RATCHETS

- Strengthened ratchet gear teeth to sustain maximum applied torque
- Reversible ratchet head
- Quick socket release mechanism
- Manufactured from high grade Chrome Vanadium Steel (Cr-V)

### HEAVY DUTY SOCKETS

- All SP Tools sockets and accessories are manufactured from high grade chrome vanadium steel and exceed international DIN and ANSI standards. Designed to withstand the rigours of industrial and trade use.
- FLAT DRIVE TECHNOLOGY Maximises contact on the flat sides of the bolt or nut, not the points.
