92371 Hatchet 1.25 Lbs.

- Forged with medium carbon steel, with fully-polished tip surface, chrome-plated anti-rust iron tube + iron ring + environmentally-friendly TPR handle, and blade subjected to heat treatment for lasting sharpness

No.	Spec.	L(mm)			
92371	1.25 lbs	330	6	24	22.1

⚠ Excluded from lifetime warranty terms.

Advanced production technology adopted

Unique tempering technology adopted for stronger impact resistance

Made with CR-V for higher hardness, better toughness and longer service life

Impact Chisel Application

Center Punch

Mainly used for positioning and marking before tapping in mechanical maintenance, installation, construction, automobile repair and other industries

Pin Punch

Mainly used for mechanical maintenance, installation, bicycle, motorcycle, automobile maintenance and other industries where pins are required. The dimensional tolerance of each pin punch working end is strictly controlled to ensure a good fit with the dimensions of the corresponding pins.

Taper Punch

Mainly used for mechanical maintenance, installation, bicycle, motorcycle, automobile maintenance and other industries where pins (taper pins) are required. The dimensional tolerance of each pin punch working end is strictly controlled to ensure a good fit with the dimensions of the corresponding pins. Taper punch can also be used for chamfering.

Cold Chisel

Cape Chisel

Mainly used for grooving, welding slag removal, shaping and carving in mechanical maintenance, installation, construction, automobile repair, rock engineering and concrete engineering and other industries.

Hickory Dead Blow Hammer

- Hammerhead made of special material for good wear resistance and low temperature resistance, high corrosion resistance and chemical stability
- Anti-blocking with other materials
- Embedded hammerhead for firmness
- Improved impact effect with sensitive workpiece surface protected
- Handle made of American walnut
- Built-in steel balls for increased tapping force and rebounding prevention
- Hammerhead replaceable with bench vice
- Anti-slipping handle tail
