INNER FLAME SERIES

3 Inner Burner Gas Hob
RB-3CGT

RM 5,821

Gas Input (LPG) L/R 3.6kW C 1.5kW
Product Dimension W 853mm D 434mm H 66mm
Cut-out Dimension W 815mm D 405mm

- Inner Flame
- High Heat Efficiency
- Schott Ceran Glass
- Timer
- Safety Device
- Simmer Control
- Cast Iron Pan Support
- Battery Ignition

2 Inner Burner Gas Hob
RB-2GI

RM 2,292

Gas Input (LPG) L/R 3.5kW
Product Dimension W 780mm D 466mm H 66mm
Cut-out Dimension W 703mm D 403mm

- Inner Flame
- High Heat Efficiency
- Tempered Glass
- Safety Device
- Simmer Control
- Cast Iron Pan Support
- Battery Ignition

Tornado Inner Flame

Versatile Flame Settings With Simmer

Perfect flame control with powerful, controllable and even heating, providing the ideal setting to cook your favourite Asian dishes.

Save Gas And Cooking Time

The Inner Flame burner helps reduce energy - it heats the cookware from the middle - resulting in less heat lost.

2 Inner Burner Gas Hob
RB-2CGT

RM 4,475

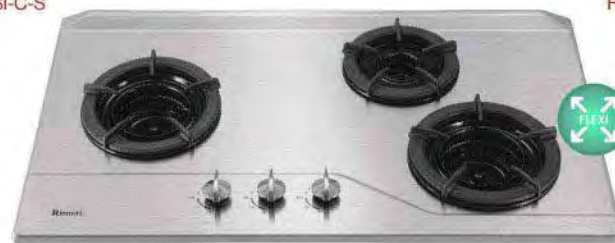

Gas Input (LPG) L/R 3.6kW
Product Dimension W 738mm D 434mm H 66mm
Cut-out Dimension W 703mm D 403mm

3 Inner Burner Gas Hob
RB-3SI-C-S

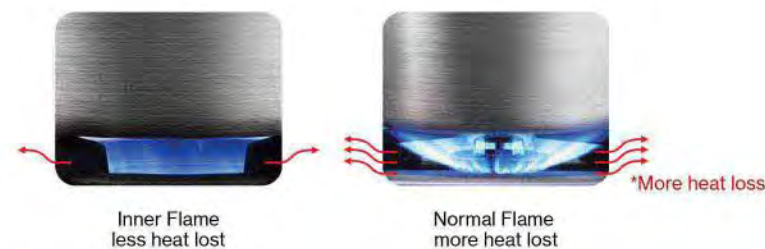

RM 2,415

Gas Input (LPG) L/R 3.6kW C 1.4kW
Product Dimension W 870mm D 510mm H 73mm
Cut-out Dimension W 725 - 840mm D 435 - 480mm

- Inner Flame
- High Heat Efficiency
- Stainless Steel Top
- Safety Device
- Simmer Control
- Cast Iron Pan Support
- Flexible Cut-out
- Battery Ignition

Flexible Cut-Out Size

Water Boiling Test

*Based on Japan internal test

	Inner Flame	Normal Flame
Gas Input	3.6kW	4.2kW
Boiling Time	348 sec	414 sec
Heat Efficiency	52%	40%

Rinnai's Original Combustion Technology

Armed with 52% heat efficiency (JIS standards), the Inner Flame burner cooks faster and uses lesser gas than conventional gas hobs with 40% heat efficiency.

Protection From The Wind

You no longer have to worry about leaving the windows open when cooking - the Tornado Inner Flame is isolated and protected from surrounding winds.

Timer

Allows you to conveniently set cooking timer up to 4 hours for more controlled cooking. Flame will auto cut-off when time is up.

Aluminium Louvre

Oxygen can be drawn in more for more efficient gas burning.

Inner Drip Pan

Overboiled soup will flow into the inner drip pan, which can be easily taken out for cleaning.

Cast Iron Pan Support

Cast iron pan support is solid and never deforms in shape. It ensures stability of your wok and pan.

HYPER FLAME SERIES

3 Hyper Burner Gas Hob
RB-93UG

RM 2,591

Gas Input (LPG) L/R 5.5kW C 2.0kW Product Dimension W 880mm D 520mm H 70mm
Cut-out Dimension W 705 - 840mm D 405 - 480mm

2 Hyper Burner Gas Hob
RB-72S

RM 1,832

Gas Input (LPG) L/R 5.5kW Product Dimension W 760mm D 460mm H 70mm
Cut-out Dimension W 650 - 730mm D 350 - 410mm

- | | | |
|-----------------------|----------------------|------------------|
| Flexible Cut-out | Simmer Control | Sealed Burner |
| Stainless Steel Top | Safety Device | Battery Ignition |
| Cast Iron Pan Support | Rubber Legs Attached | |

Flexible Cut-Out Size

Both the glass and stainless steel top plate fit the hob into any cut-out dimension as stated without requiring further modification to your counter-top. Good as a replacement hob!

5.5kW Flame

Emits the most powerful 5.5kW flame via the Hyper Burner to ensure maximum heating power for best flavours in cooking, especially the famous "Wok Hei" in Asian cooking.

Sealed Burner

Messy spillages are minimised and cleaning the hob is quick and easy.

5-Legged Cast Iron Pan Support

Cast iron pan support is solid and never deforms in shape. It ensures stability of your wok and pan.

Safety Device

When the burner is accidentally extinguished, the thermostat reacts and shuts off the gas supply to the burner.

Schott Glass

Durable and heat resistant Schott Glass.

Wide Distance for Extra Cooking Space

Thoughtfully designed with ample space between burners, allowing comfortable use of a wok and two pots simultaneously.

FLEXI SERIES

3 Flexi Burner Gas Hob
RB-983G

RM 2,004

Gas Input (LPG) L/R 5.0kW C 2.0kW

Product Dimension W 880mm D 520mm H 145mm

RB-27HS

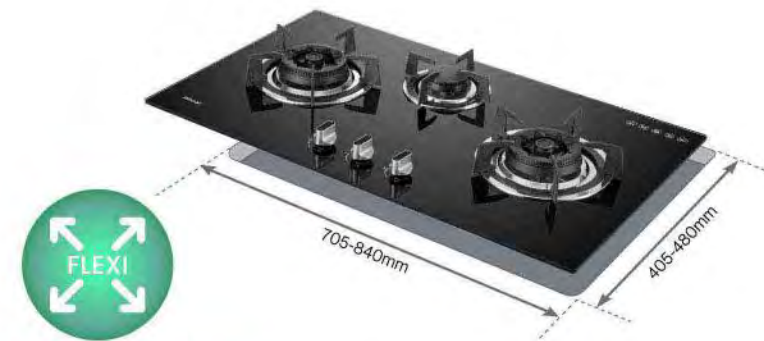

RM 1,489

Gas Input (LPG) L/R 4.5kW

Product Dimension W 730mm D 420mm H 150mm
Cut-out Dimension W 650 - 680mm D 350 - 380mm

- Flexible Cut-out
- Simmer Control
- Sealed Burner
- Safety Device
- Tempered Glass
- Battery Ignition
- Matt Enamel Pan Support
- Rubber Legs Attached

Flexible Cut-Out Size

Both the glass and stainless steel top plate fit the hob into any cut-out dimension as stated without requiring further modification to your counter-top. Good as a replacement hob!

Flame with Simmer Control

The double ring burner features a powerful flame with simmer control for greater cooking versatility and is suitable for any type of cooking from Asian to Western.

Delicate Simmer Flame

Flame can be adjusted low enough to simmer soups and stews.

Sealed Burners

Messy spillages are minimised and cleaning the hob is quick and easy.

Battery Ignition & Safety Device

Fast and easy, with no electrical wiring. Easy to replace battery too. When the burner is accidentally extinguished, the thermostat reacts and shuts off the gas supply to the burner.

Rubber Legs

The attached rubber legs allow you to place the hob directly on the kitchen workspace, without having to cut a hole or modify the kitchen top.

flexiHob
Look nice. Fit right for most kitchen top cut-out.

3 Burner Gas Hob

| Stainless Steel Top | Battery Ignition | Rubber Legs Attached |

Flexible Cut-Out Size

Both the glass and stainless steel top plate fit the hob into any cut-out dimension as stated without requiring further modification to your counter-top. Good as a replacement hob!

Flame

Semi double ring ensures excellent heat distribution for quick and even cooking.

Sealed Burners

Messy spillages are minimised and cleaning the hob is quick and easy.

Battery Ignition

Fast and easy, with no electrical wiring. Easy to replace battery too.

Wok Stand

Additional wok stand to support a big wok for Asian cooking or stir frying.

Elegant Knobs

Ergonomic and elegantly designed knobs for the perfect combination of form and function.

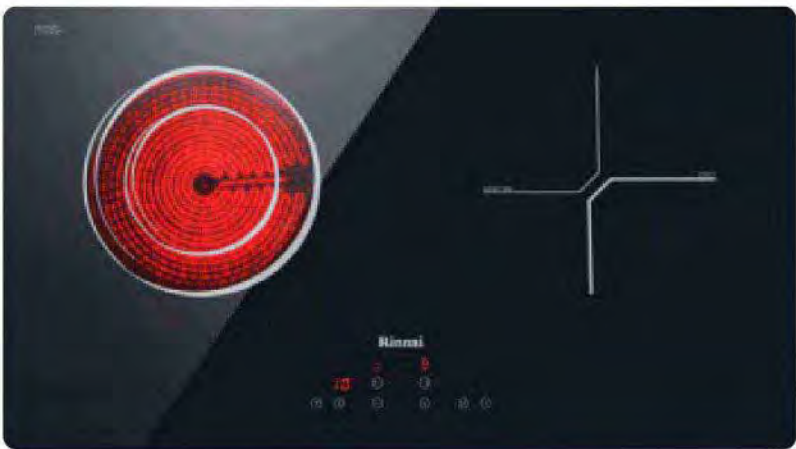

Rubber Legs

The attached rubber legs allow you to place the hob directly on the kitchen workspace, without having to cut a hole or modify the kitchen top.

Cut-out Dimension W 490mm D 270mm
- Schott Ceran Glass 9 Power Levels
- Touch Sensor Residual Heat Indicator
- Safety Switch Off Timer
- Child Lock Stop / Go Function

Timer
Allows you to conveniently set cooking timer from 0-99 minutes for more controlled cooking.

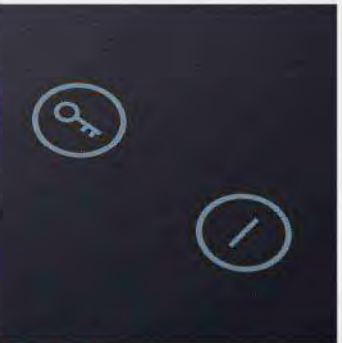

Dual Circuit Zone
Select between smaller or larger cooking zone, depending on the size of your pots / pans, so you can save more energy.

Residual Heat Indicator
The indicator lights up when the surface is hot to warn against hot surface and prevent accidental burn.

Booster Function (Induction only)
Increases to max power temporarily to quickly heat up cooking zone and save cooking time.

Child Lock
The control panel can be locked after programming to prevent a curious child from switching on the hob and also ensuring the hob does not accidentally get heated up during cleaning.

Schott Ceran Glass
When it comes to heat, Schott Ceran glass is more durable. The smooth ceramic glass surface offers practical use as well as easy maintenance.

Auto Pan Recognition Sensor (Induction Only)
Induction hobs are particularly energy saving as the cooking zone recognizes the size of the cookware, and heats up the base of the cookware and not the whole cooking zone. It also detects right base dimensions.

Induction Hobs vs Gas Hobs
Induction cooking works by creating a magnetic field that generates heat directly through the base of the cookware. Induction hobs are safe as the heat is directly transferred to the food being cooked. Even if the controls are turned on unintentionally, the hob heats up only when it detects suitable cookware placed on the cooking zone. Induction hobs boil and cook faster than gas hobs because of the heat concentration and high heat efficiency with almost no heat loss.

90cm Inverter Motor Slanted Hood
RH-KT2959-GBV

RM 3,300

Suction Power 1350m³/h		Dimension W 895mm D 490mm H 970-1450mm	
	LED Touch Sensor Control		LED Strip Light
	3 Speed Settings		Booster Function
	Ventilation		Oil Cup
	Colour Changing Mood Light		Delay Timer
	Baffle Filter		

* 7 inch end cap and aluminium hose included.

Inverter Motor

Powerful DC Inverter motor with booster function speeds up the extraction of greasy fumes and smoke.

LED Mood Light

Changeable LED color mood lighting on cooker hood to complement kitchen ambience and enhances mood for cooking.

Extra Large Oil Cup

The extra large oil cup catches more oil residue and requires less frequent of cleaning.

Delay Timer

The cooker hood switches off automatically at a preset time allowing hood to continue extract the oily fumes, leaving a clean kitchen without smoke or pungent smells.

90cm Chimney Hood
RH-C91A-SSVR

RM 3,477

90cm Chimney Hood
RH-C819-GB

RM 3,220

90cm Chimney Hood
RH-C3219-SSW

RM 2,776

Inner Flue Extension

*Optional accessory for RH-C819-GB only.

Additional piece of chimney flue extension of 1200mm height is available for purchase. Suitable for ceiling height up to 11 feet.

RM 386

Rectifier Panel

Full acceleration speeds up the extractions of smoke and grease.

Magnetic Lock

Rectifier panel can be easily detached for cleaning. Save the hassle of loosening the mounting screws.

Oil Collector

The large stainless steel oil cup can contain more oil and has a window to see the oil level.

Sensor Touch Control

Touch control is extremely easy to use and indicates speed, light and delay timer.

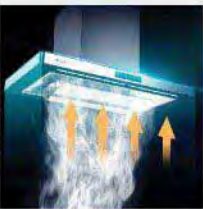

Smooth & Concentrated

With 310Pa high static pressure, fumes are extracted rapidly and able to move through the common duct unobstructed and without backflow.

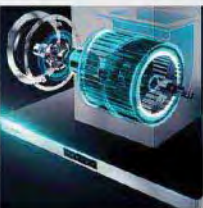

Oil Filtration Process

Baffle Filter (Internal Oil Filter) Contains double filtration to help extract rising oil fumes and grease.

Wider Suction Coverage Minimises Escape

Its extremely vast coverage area captures oil fumes directed upwards to prevent steam/fumes from dispersing. Its filtration system cleans and recirculates fresh air back into the kitchen.

Powerful Suction With Enhanced Propeller

The thicker 180mm impeller is placed vertically, housed in a larger 250mm diameter propeller resulting in pressure differences between the left and right sides. The wider air inlet area leads to more suction space and powerful airflow.

Removable Door
The glass door can be detached easily so that the oven cavity can be cleaned more easily and thoroughly.

Extra-Large Cavity
The 70lt extra-large cavity offers you extra space for flexible cooking.

3D Circular Fan
The circular heating distribute heat evenly so that you can cook different types of food on different shelves simultaneously without worrying that the smells and tastes will be transferred from one dish onto another.

Multifunction
Each function is designed to give you the most ideal cooking method to suit your recipe and to provide the best results. For e.g, Fan & Grill function ensure your large roast is being cooked through.

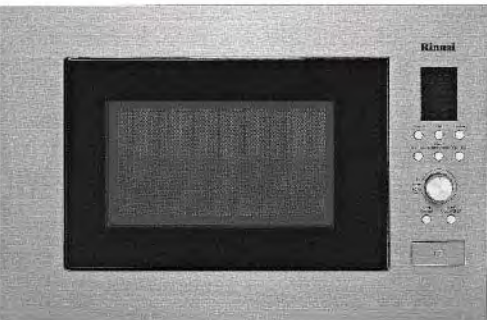

Sensor Touch Timer
You can use the timer to count down the cooking time or program your oven to start/stop at a particular time.

Measurements in mm.
* For bench top installation, minimum 5mm ventilation gap is required on both sides of appliance. If oven installed below a hob, minimum 30mm ventilation gap is required between hob and oven or refer to required distance instructed in the hob manufacturer's instruction manual. Follow the higher distance if in doubt.

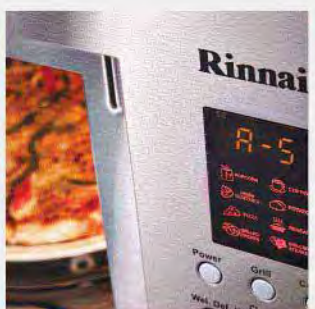

MICROWAVE OVEN SERIES

Function: General, Thick & Extra, Warm, Delicate, Timer, Fast 1KG	

2 Weeks On-site Free Trial

We have a Free 14-Day Demo for our gas clothes dryer, where our technician will install the dryer at your home, along with a gas cylinder. During this 14-Day Demo period, you are free to use the gas dryer as you wish and ask us any questions about it!

At this moment, we only offer the Free 14-Day Demo to Klang Valley. If you are currently from outside of Klang Valley, we can arrange depending on location and case-by-case basis.

KILLS MORE THAN 99% OF GERMS

Indoor Drying Increases Bacteria Growth

Drying laundry indoors may lead to rapid growth of bacteria on clothes. As a result, your clothes may smell, and you're more susceptible to diseases such as otitis media, asthma and respiratory infection.

DRYING TIME

1.28 hrs

Rinnai Gas Dryer

2.23 hrs

Electric Dryer

Speedy & Economy

- Gas heats up the air intake much quicker than electricity. That's why a gas dryer needs only half the time required by electric dryer to dry the same load.
- Gas heat eliminates microorganisms or dust from your laundry.
- Long term energy saving of about 20% are yours to enjoy.

Easy Operation

- A computerized user-friendly control panel offers the ease of one-touch operation.
- There are different programs to suit different fabric materials.
- With the built-in sensor, you don't even need to set a timer to ensure best drying results.

UNDER SUN

DRYING TIME	👍	👍👍	👍👍👍
ANTI-BACTERIA	👍👍👍👍	👍👍👍	👍👍👍
SPACE	👍	👍👍👍	👍👍👍
WEATHER	👍	👍👍👍	👍👍👍

Soft & Fluffy

- A built-in microchip sensor constantly monitors humidity at half-second intervals to prevent over drying.
- Water vapour produced during gas combustion keeps your clothes soft & fluffy.

Outdoor Drying Exposes Clothes to Pollutants

Poor outdoor air quality means that the laundry hung outside for long period of time would accumulate large quantity of PM2.5 particles (atmospheric particulate matters that have a diameter of less than 2.5 micrometers) that can cause skin allergy among children.

Comparison disinfection of E.coli (Escherichia coli)

Ideal for baby clothes drying

Our dryer demonstrates the same level of disinfection effect as sun-dried. Moreover, since there is no need for external drying, there is no worry that particulates such as dust and exhaust gas will adhere.

Fast 1KG Quickie

< 20 min quick drying of small amount of clothes for 1kg

High-power hot shower

With 3.8kW heating capacity that shortens heating time, Rinnai Sen Series provides hot water faster to give you instantly relaxing hot shower, especially on a cold day.

Earth Leakage Circuit Breaker (ELCB) (for Sen series) Residual Current Device (RCD) (for Crystal series)

Cuts off electricity supply in the event of current leakage.

Key Features

1-Knob Control
Easy temperature control with a turn.

Lightning & Surge Protection
Built-in surge protector protects from lightning strikes and current leakage.

Dual Over Temperature Safety Cut-Off
Avoids overheating and scalding with auto-reset if water temperature exceeds set limit. (Sen series: Primary cut-off: 55°C; Secondary cut-off: 90°C) (Crystal series: Primary cut-off: 55°C; Secondary cut-off: 85°C)

IP25 Splash-Proof Protection
ABS plastic waterproof casing is in compliant with IP25 Safety Standard to prevent water and dust.

Auto Flow Sensor Switch
Shuts off heater automatically to avoid dry burn when water flow is too low.

5-Multi Spray Handshower
Comes with a choice of 5 classic spray nozzles

Detachable Top Plate
Our table top cooker comes with a detachable top plate. This feature allows for easy cleaning and maintenance.

8 Safety Features

- High heating power and heat efficiency. Therefore saves gas and cooking time
- Carbon monoxide (CO) gas from incomplete combustion is maintained at a low 0.04% - prevents risks to health
- Special ABS plastic knob does not crack easily
- Gas pipe is coated with special anti-rust paint
- Enamel-coated pan support withstands heat up to 800°C
- The highest-quality gas valve lasts for 60,000 usage cycles; its performance is guaranteed up to 5 years
- Type 304 stainless steel burner with excellent anti-rust quality
- Sturdy construction is able to support up to 50kg of total weight

PEX Flexible Hose

Encased in 304 Grade Stainless Steel, this flexible 'Cross-Linked Polyethylene' (PEX) hose, together with the 'brass-forged' lock nut, has a prolonged lifespan. It is corrosion and chemical resistant and is able to withstand high water temperature. Most importantly, it is odour-free and safe for drinking water.

Quick & Easy Fit

Installation can be conveniently done from the sink top with any power tool (drill) and a 4mm 'allen key' (provided) to lock it in position. You only need to go underneath the sink for the sole purpose of connecting the attached hose to the water supply. This revolutionary method is remarkably simple. In fact, it can be easily done by any able-bodied person in a matter of minutes.

"Top Mount" Fitting

With the E-Fit system in place, installing the faucet can be done ever so easily by mounting it from the top, as opposed to the arduous conventional way of having it mounted from below the kitchen sink. Now, that's precision engineering at work.
